The meeting closed last night, Rev. McDonald leaving this morning for his home.

STOLE A WHEEL

And Rode Straightaway Into John Johnson's Hotel de Gaol.

"Bud" Johnson

Was the name he gave.

His age was about 18.

And he says his home is at or near Mt. Sterling.

"Bud" bowled into Maysville Thursday, his mount being a \$100 Cleveland bike.

It was not long till he developed "business."

And finally he found a Maysville man who had a \$100 bill to invest in a \$100 wheel.

The latter was James Brown.

Special officer Purnell "got onto" the fact that the aforesaid wheel had been stolen from a party near Lexington.

And he started out to chase it down.

After several hours search he located it at Mr. Brown's, and he soon after saw that Mr. Johnson was safely seated in Jail.

The hearing will take place some time today.

WE'RE FOR AMERICANS!

BRADLEY.

Kentucky's Own Son for President.

BRADLEY'S CURRENCY PLATFORM.

"I am opposed to the free and unlimited coinage of silver, believing it would destroy all National property. The gold dollar is the best dollar, and I am in favor of making every other dollar equivalent to it in value. I am the friend of silver, and believe it can be best protected by holding it in such bounds as will insure its value as a circulating medium."—W. O. BRADLEY.

We never knew until last week how men could be leaders of a party. We know now. They wait to see which way the procession is going and then fall in line in front. —Ashland Republican.

Right, Brother HUFF; but even then some of the "leaders" mistake the proper procession—or jump into the wrong "Band-wagon," as the boys put it.

The Senate disposed of the sectarian question by adopting a compromise framed by Senator COCKRELL of Missouri. The Indian Bill, as it came from the House, provided that "no money heretofore appropriated shall be paid for education in sectarian schools." This provision is struck out by the COCKRELL amendment as adopted, and it is declared to be the settled policy of the Government to make no appropriations for sectarian schools after July 1st, 1895, thus giving two years for the abandonment of sectarian schools, instead of an immediate abandonment. The amendment was adopted by the decisive vote of 38 to 24.

"In 1894," says the report of the Senate Committee, "the wages of labor paid in depreciated paper dollars worth 49 cents each, had advanced 25 per cent, but the prices of the necessities of life had advanced 90 per cent." Let us put this into concrete form. Never mind the odd 1 per cent. Let us take the even figures, say The Commercial Gazette, and see how the thing works out.

A man got for a day's labor before the war—and it was a long day's labor—in the field, \$1 a day. In 1894 his wages had increased to \$1.25. Meantime the butter he bought had gone up from 20 cents to 38 cents; the milk from 40 cents to 75; the eggs from 10 cents to 19; the beef from 12 cents to 22 cents; the shoes from \$2 to \$4; the clothes from \$10 to \$19.

A man who was living on a salary of \$1,000 had his salary increased to \$1,250, and instead of saving anything by the increase he found that his expenses had gone up from \$1,000 to \$1,300. He was worse off than he was before.

In 1890 the prices of table board ranged in New Haven from \$2.75 to \$3.50 per

NEW TRIAL GRANTED
Because the Jury Drank Whiskey. The First Time in the History of Kentucky.
LAWRENCEBURG, Ky., April 24.—For the first time in the history of Kentucky, a new trial has been granted because the jury who had the case in charge drank whiskey and other stimulants.

The counsel for defense in the case of commonwealth against Joe Brown for the murder of Folk Moffatt, on Christmas, 1893, Thursday made a motion for a new hearing, however, upon sworn affidavits by certain jurors that the sheriff in charge of the jury had permitted them to drink six quarts of whiskey and two bottles of beer, and Judge Carroll, after a masterful opinion in the case granted the new trial and fixed the bail at \$4,000. The case will attract universal attention.

RESOLUTIONS.
Adopted by the Arbitration Convention at Washington.

They Favor the Arbitration of International Disputes Between

The United States and Great Britain—Belgium, Humanity and Justice Demand the Establishment of a Permanent System of Arbitration.

WASHINGTON, April 24.—Chairman Edmunds called Thursday afternoon's session of the conference to order at three o'clock. The committee on resolutions presented the following report as a substitute for several propositions referred to the conference.

This national conference of American citizens assembled at Washington, April 18, 1895, to promote international arbitration, profoundly convinced that experience has shown that war as a method of determining disputes between nations is oppressive in its operation, uncertain and unequal in its results and productive of immense evils, and that the spirit and humanity of the age as well as the precepts of religion, require the adoption of every practicable means for the establishment of reason and justice between nations and considering that the people of the United States and the people of Great Britain are bound together by the ties of a common language and literature, of like political and legal institutions and of many mutual interests, and animated by a spirit of devotion to law and justice, have on many occasions, by resolution and friendly proposals, manifested their just desire to substitute reason for force in the settlement of their differences and to establish a reign of peace among nations, that the common sense and enlightened public opinion of both nations is utterly averse to any further war between them; that the same good sense, reinforced by common principles of humanity, religion and justice, and by the adoption of a permanent method for the peaceful adjustment of international controversies, which method shall not only provide uniform application of principles of law and justice in the settlement of their differences, but shall also, by its example and results, promote the peace and progress of all peoples, do hereby adopt the following resolutions:

1. That in the judgment of this conference, religion, humanity and justice as well as the material interests of civilized society, demand the immediate arbitration between the United States and Great Britain of a permanent system of arbitration.

2. That it is earnestly recommended to our government so soon as it is assured of corresponding disposition on the part of the British government to take prompt action for the purpose of the practical application of the method of arbitration to international controversies.

3. That a committee of this conference be appointed to prepare and present to the president of the United States a memorial respectfully urging the taking of such steps on the part of the United States as will best conduce to the end in view.

Religion (N. Y.) men who have served a "sentence" of fifty religious meetings, and recently on the high road to the end of the punishment, Saturday and had to be

right on his neck can't get to compete in life if they are not handicapped, and his blood

regard Jesus Christ. This is one strong tendency of religion, this making believe in speculations, and as a consequence there is no place for growth or enlargement. God has been speaking thousands of years through the phenomena of nature, yet no one ever heard

He speaks through the conscience and nature. We do not to interfere with the work of God, but in terms of life. This is coming

about in our civilization and it must be got ready for. All Churches are for but one purpose in life, for the same thing. Their basis is a common purpose, not creeds.

"The Church that is coming will have a door that will admit all, and with a dome that will allow every man to expand to the limit of his possibilities, and a floor for every truth. Then will peace spread her wing over humanity. There are many who are unable to accept the dogmas of the Christian religion; these are the ones we call unchurched. The man who works most for humanity is doing most for God. Desist from dealing in futures from whence no messenger has ever come. How much more good can then be accomplished for the one thing that animates humanity."
